# BRAVE NUDE WORLD

Markus Freise . +49(0)15112549129 . markus@freise.de

## How do I get my personal nude

Just reach out via DM or at email markus@freise.de. You can also place the commission through my shop www.schoenerbude.de. A regular nude watercolor picture based on your photo costs €230 plus shipping (€10 EU or €20 worldwide). The format of the picture is about 30 x 40. Of course different formats are possible. Just contact me.

## Is discretion guaranteed?

Yes. Of course. I am aware, that having a nude watercolor painting drawn is a very personal matter and I am humbled by you trusting me in this matter. This job is met with total discretion from A to Z. No one, except you and me, will see either the reference images neither the final result.

## Will the picture be published?

No. Not by default. All personal publishing rights go directly to you. Only if you give me a distinct written approval I am allowed to publish the image for promotional purposes. Also prints will only be offered when you are okay with that and have given me permission to do so. Also, if published, there will be no connection to you, your name or anything else. Even my naming convention with e.g. „This is L.“ is totally arbitrary and normally not derived from the models real name.

## How do I send the photos?

This is totally up to you. The easiest way would be via email at markus@freise.de. Attachments will be downloaded and then removed from the email. The text of the email is archived. Any other way of sending the nude pictures is fine with me. It is most important to me, that you feel safe and comfortable with this. I can only thank you for your trust. Please be assured that I will handle the files with the most possible care and security. Also see the next point for more details.

## How many photos are needed as references

In principle, I like to have at least one photo of the final pose. Which one that is, is of course 100% up to you. More photos may help me to get a better understanding of the „whole picture“ or to get important details, which may be in the shadow of the actual photo. A drawing teacher once told me that if you really want to draw something, you have to understand it in its entirety. Even the things won't see on the final drawing

## What about the art style of the painting

Every artist has his own distinctive style. So usually there is not much to say about that. I am sure you looked into my work and decided on this premise to get your painting done. So you already have a quite good understanding what to expect. Nonetheless: You can also give a general color request. Then I think in that direction. For example, if you already know where you want the picture to hang later, it makes sense that it integrates well. You are also welcome to look in my store and tell me what you like and what you don't like. Then I'll take that into account.

## How are the associated files stored?

All files associated with your commission are stored on local storage which is not directly connected to the net. No cloud storage services are used – only if this is your wish – for data exchange e.g. Also all files, except scans of the final result, will be immediately deleted once the job is done.

## What about shipping?

Shipping is done in either a neutral envelope or a card board box. The picture will be protected as best as possible. Also the parcel is insured. So in the unlikely event that the postal services damage the shipment, you will get your money back or you can have another picture done for free.

## Let's be open from A to Z

If there are any more questions, please let me know. Via email at markus@freise.de, DM on Instagram @brave.nude.world or WhatsApp on +49 (0) 151 12549129. If you need any more personal information about me please also visit my website www.markus-freise.de.

Thank you and now: Let's do art.

## About the photos and best practices for taking it

As long as you don't already have photos or have them taken by a professional here are some tips for getting the best results:

If you don't want to be recognized, it would be good to take this into account already on the photo. e.g. by turning your face away or - depending on the length of your hair - hiding your face by the hair. Creative poses (hands in front of the face) are not excluded ;-). Otherwise we have to look for a graphical/artistic solution. That works. But if you think about it in advance, the better. In the end, it is also possible that the face itself is not worked out exactly, so that you are not really recognized.

It is good if the photo already contains contrasts (light and dark areas). If you don't have professional equipment, this can be achieved by standing in front of a window where the sun is shining or by putting a very bright lamp on one side.

All in all it is good if the photos are clear and sharp. However, current smartphone cameras can usually do this with normal daylight or room lighting.

Of course, photos taken by a photographer are optimal. But there is no must. In most cases, the photos delivered are actually „homemade“ by friends.

. As an inspiration, a simple Google search will give you plenty of results for possible poses. Please consider to switch off „Safe Search“. Otherwise Google will filter nude images from your search.
